

# Defibrillator Accessories

## HeartCase Extreme Environment™ Tells the world what it is! *It travels to the patient - just lift & carry*

### HC1EE Features:

- Designed for outdoor environments, industrial applications, and where additional security and durability is required (full backplate)
- Waterproof and Dustproof
- Clear window provides view of AED and maintains cooler temperatures (unlike metal cabinets that create a green house effect)
- Won't Rust, Dent, Scratch, Chip, Crack, Peel, Bend, or Corrode
- Injection Molded for Strength and Durability
- 100 Decibel High Output Alarm
- High Intensity Strobe Light Alarm
- Lightweight for easy transport
- NO sharp edges!
- Stainless Steel handle
- Optional Security Tie-in Circuitry available
- Optional plastic security ties indicate use or tampering when broken (attaches to handle)

### Part Number:

- A8-HC1EE: HeartCase Extreme Environment™
