HeartSine®

## HeartSine samaritan® PAD Public Access Defibrillator

A8-300P

Compact, easy-to-use,  
lifesaving technology.

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. Response time is critical for survival. The HeartSine samaritan® PAD was designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system.

### Compact in size, long on ability.

**Portable.** The samaritan PAD is lighter (2.4 lbs.) and smaller than other defibrillators.

**Durable.** The samaritan PAD resists shock and vibration and carries an IP56 Rating, the industry's highest rating against dust and water. It can be taken and used virtually anywhere, even in the most inclement conditions. It also carries a 7-year unit warranty.

**Advanced technology** SCOPE™ \* Biphasic technology automatically optimizes energy output for each person, and has been reported to provide significantly better performance in removing ventricular fibrillation (VF) by the third shock. \*\*

2.4 lbs. light.

### Easy-to-follow visual and verbal guides.

**User-friendly.** The samaritan PAD features easy-to-understand visual and oral prompts that guide a user through the process.

**Two-button operation.** Only two buttons, ON and SHOCK, are required, providing straightforward operation.

**Always ready.** A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. Device automatically runs self check each week.

Visual cues prompt pad placement

Stand clear of the patient

It is safe to touch the patient

### Real economy for the real world.

**Two parts, one expiration date** Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.

**Low cost of ownership.** Cartridge typically has a shelf-life of 3.5 years from date of manufacture, offering significant savings over other defibrillators that require separate battery and pad units.

Pad-Pak™ and Pediatric-Pak™, with pre-attached electrodes

## HeartStation

## HC1EE

### HeartCase Extreme Environment™

### Tells the world what it is!

*It travels to the patient - just lift & carry*

#### HC1EE Features:

- Designed for outdoor environments, industrial applications, and where additional security and durability is required (full backplate)
- Waterproof and Dustproof
- Clear window provides view of AED and maintains cooler temperatures (unlike metal cabinets that create a green house effect)
- Won't Rust, Dent, Scratch, Chip, Crack, Peel, Bend, or Corrode
- Injection Molded for Strength and Durability
- 100 Decibel High Output Alarm
- High Intensity Strobe Light Alarm
- Lightweight for easy transport
- NO sharp edges!
- Stainless Steel handle
- Optional Security Tie-in Circuitry available
- Optional plastic security ties indicate use or tampering when broken (attaches to handle)

#### Part Number:

- A8-HC1EE: HeartCase Extreme Environment™

Patent Pending

**In Case of Cardiac Emergency**

Release strap on HeartCase handle (pull tab up).

HeartCase will tip forward. Lift up to remove.

Transport HeartCase with all contents to patient.

**Alarm Will Sound**

Sign - 6" x 6"

Sign and HeartCase™ not shown to scale

H 18" x W 15.5" x D 6.75"

#### Accommodates:

Philips, Physio-Control, HeartSine (in soft case) & Welch Allyn (w/o case)

#### Includes:

Instruction Sign (shown above)

AED Support Strap

Mounting Backplate

**Saving Time...Saves Lives**

## The ALL Environment Solution!

**Don't put your AED in a fire extinguisher cabinet... HeartCase™ it!**

## HC1

# HeartCase Stow-n-Go™

## Tells the world what it is!

The HeartCase™ travels to the patient - just lift & carry

### HC1 Features:

- Injection molded ABS plastic for strength and durability
- Lightweight (2 lbs) for easy transport
- Won't dent, bend, chip, crack, peel, rust, yellow or corrode
- NO sharp edges!
- Clear window provides view of AED and indicator light
- Stainless steel handle
- Optional security tie indicates use or tampering
- Optional 90db alarm available

### Part Numbers:

- A8-HC1S Single HeartCase™ - No Alarm
- A8-HC1SA Single HeartCase™ - With Alarm

Patent Pending

6" x 6"

Sign and HeartCase™  
not shown to scale

H 14" - W 14" - D 6 3/8"

### Accommodates:

Philips, Physio-Control, HeartSine (in soft case) and Welch Allyn (no case)

HeartCase Stow-n-Go™ reduces cardiac emergency response time and protects the AED during transport

### HeartCase™ Includes:

Instructional sign (shown above)  
Hook-and-Loop case strap  
Mounting bracket
